3. IN-GAME CONTROLS.

(a) Starting a game.

Once a table has been loaded and is scrolling up and down the screen in its attract mode, you can start a game by using the number buttons on the Joypad as follows:

| Button | Action |
|------------|------------------------|
| 1 | Start a 1 player game |
| 2 | Start a 2 player game |
| through to | |
| 8 | Start an 8 player game |

(b) Pausing the gameplay.

Press the **PAUSE** button to freeze the gameplay. The message "game paused" will appear in the scorepanel to indicate the mode has been activated. To continue play, simply press the **PAUSE** button again.

(c) Changing the master volume level.

While the game is paused, pressing the A, B or C button will allow you to change the master volume level. As before, use the D-pad left/right to decrease or increase the volume percentage from 0% to 100%. Once the level has been set, press the A, B or C button to return to the "game paused" status.

(d) Changing the gameplay options.

While the game is paused, pressing the OPTION button will allow you to cycle through the gameplay options and change them if required. Use the following keys to achieve this.

| Button | Action |
|---------------|--------------------------------------|
| D-pad down | Cycle forwards through options list |
| D-pad up | Cycle backwards through options list |
| A, B or C | Toggle between available settings |
| OPTION | Return to the "game paused" status |

See the "game options menu" section above for details of the options and settings available.

(e) Muting the sound.

While the game is paused, pressing the D button on the keypad will instantly mute all sound in the game. Pressing D again will reinstate the sound.

(f) Entering your name for the hi-score table.

At the end of a game, if you have achieved a hi-score you will be permitted to enter your name for the hi-score table. You can enter three alphanumeric characters as your name. Use the following keys to place your name in the table.

| Button | Action |
|---------------|---|
| D-pad left | Cycle backwards through the alphabet/digits |
| D-pad right | Cycle forwards through the alphabet/digits |
| B | Select an alphanumeric character |

(g) Quitting a table.

If you decide to quit a table during play, wait until a new ball is placed in the ball chute (ready to be fired into the table) and press the OPTION button followed by the A button. You will now be returned to the main menu. If after pressing the OPTION button you change your mind and want to continue playing, press the C button. If

required, you can also access and change the game options as outlined in (d) above by pressing the B button straight after pressing the OPTION button.

(h) Restarting the game.

If at any time you wish to start the whole game from scratch, simply press the * and B buttons simultaneously. The screen will blank and the introduction sequence will start as if you have just turned on your Jaguar (tm) 64-bit interactive Multimedia System.

(i) Game settings and hi-scores storage.

Game settings (audio and hi-scores) can be retained in the game cartridge even if you have turned off your Jaguar (tm) 64-bit interactive Multimedia System. To erase the currently stored settings and hi-scores and restore the default settings and scores, press the *, OPTION and B buttons simultaneously during the introduction sequence or on the main menu screen. The message "cartridge memory cleared" will be displayed and the game will be reset as in (h) above.

GENERAL INFORMATION

8 The JACKPOT is a score counter which is built up by all participating players during the game. It is reset each time a jackpot is awarded to a player!

Many of the lights on the tables have letters on them which enable special features as follows:

XB - Extra Ball

JP - Jackpot

DB - Double bonus

xM - Score x million points

SB - Score bonus

5x - Score 5 times feature points

HB - Hold bonus

MB - Bonus Multiplier

xK - Score x thousands

A flashing light is often a hint as to where you can win your score and collect the bonuses.

At the end of your game the last but one digit of your score will be shown in the panel. Random numbers will then be flashed across the panel and one will be selected. If your number matches the random number you are awarded an extra ball and can continue play from where you left off.
